## Birch.ai - NLP Researcher

### Who We Are:

The small but mighty team at Birch.ai is looking for entrepreneurial engineers who will build transformative healthcare solutions. Together, we will take the paperwork out of healthcare, and you will be instrumental in shaping products that healthcare stakeholders, such as doctors, love to use.

### Benefits:

Work with a team that is on the bleeding edge of technology in the NLP space while improving the patient experience for all. Do that from home with a flexible schedule, and a competitive salary.

### Responsibilities:

- Design new NLP algorithms to improve model performance in a production environment
- Demonstrate a keen interest in NLP research, stay on top of the literature, and keep the team informed on advances in the field

### Requirements:

- Experience with pytorch is a must
- Be familiar with Fairseq/Transformer frameworks
- Candidates with publications in the space, strongly preferred
- Demonstrated passion for NLP/Deep learning

### Contact:

Please send a cover letter, CV, and any links to your publications or examples of your work to: [jobs@birch.ai](mailto:jobs@birch.ai)
